Considering graduate school? Earn course credit and gain valuable research experience!

We are looking for motivated undergraduates to assist with current projects to:

- provide training to therapists in research supported therapies
- develop a therapy process measure to be used in dissemination and implementation of CBT for children with anxiety, trauma history, depression and/or behavior problems
- support therapists who are trying to improve their practice and their client's outcomes
- develop an internet-based feedback system to help therapists improve the care that they provide to clients

Interested applicants:

- should have at least a 3.4 GPA and sophomore standing
  - Exceptions to these requirement may be considered on a case-by-case basis for highly motivated applicants who have experience in website development and/or computer programming
- must commit to work a minimum of 8 hrs/week for 2 semesters
- may work for course credit, as volunteers, or in a work-study position (if eligible)
