Research Assistants (RAs) in the Personality Dynamics Lab run CREATIVE experiments on topics varying from meaning in life to emotions to intuitive thinking. Students interested in a future in personality, social, or clinical psychology, as well as those interested in social work, business administration, and human resources can gain experience in our lab that will greatly benefit these goals.

If interested in earning credit (2950/4950) or just volunteering for the experience, please contact Sarah at sjhtg6@mail.missouri.edu
