3) HOPING TO TAKE A FALL 2015 PSYCHOLOGY COURSE AND IT IS CLOSED OR YOU ARE UNABLE TO ADD AN OPEN COURSE?

Permission number requests can be made via email request to Jill Edwards (EdwardsJi@missouri.edu) or in 100 McAlester Hall. You may email Jill Edwards at EdwardsJi@missouri.edu or you can go to the Advising Office, located in 100 McAlester Hall (573-884-3811) and fill out a permission number request form. **Priority will be given to psychology majors, Interdisciplinary Studies majors (with psych as an area) and minors who are graduating in December 2015.** Please keep in mind that most upper-level and smaller-course permission numbers go to graduating seniors, so please have a back-up plan in place and be ready to request as many courses as possible. If you have questions, please contact Jill Edwards at EdwardsJi@missouri.edu. Note: The following pre-req’s will be strictly enforced: Psych 1000 is a required pre-requisite course for all 3000-level psychology courses. Psych 1000 is a recommended pre-requisite for all 2000-level psychology courses, but is not required to enroll in 2000-level psychology courses.

Here is the information Jill will need for your permission # request. Please send a separate request for each class.

1) Your Name
2) Your Student ID
3) Your MU email address
4) Your Major and Minor (if applicable)
5) Your graduation date
6) Course info -- write like this: "Psych 1000 Lecture 4"

**A Note About Statistics 1200:** There are three different lecture options for this course (Lect 1 is Tu/Th 10-10:50AM, Lect 2 if Tu/Th 12-12:50PM, and Lect 3 is online). Professor Ries says that
you can be registered for ANY of the three lecture options, and you can choose to attend ANY of the lectures, regardless of the lecture you have added to your schedule. However, you will also sign up for an on-campus discussion section, and you need to attend the discussion section that you register for once a week. For example, you can be registered for the online lecture, but you can attend lecture 1 if you would like to have an on-campus lecture. For another example, you can be registered for Lecture 2, but you can decide to watch the online lecture instead of attending the on-campus lecture. As long as you are registered for one of the three lecture options AND attend the discussion section you have on your schedule, it’s all good! If you have questions, ask your Academic Advisor.

4) HOPING TO TAKE A FALL 2015 NON-PSYCHOLOGY COURSE AND IT IS CLOSED OR YOU ARE UNABLE TO ADD AN OPEN NON-PSYCHOLOGY COURSE?
If you are trying to enroll in a non-psychology course and it is closed, or myZou will not allow you to add it, first click on the lecture and scroll down to see if there is any information in the Class Notes that might help you. For example, it might say “This Course is Restricted to Comm Majors Only During Early Registration”, or “Journalism Majors Only” or “Junior/Senior Standing Only”.

If a non-psych course you hope to take is closed, you may contact the professor of the course (or the department that offers the course) to inquire about requesting a permission number. You can find professor names by clicking on the lectures on myZou. If no professor is listed, you may contact the department offering the course (e.g., Romance Languages, English) to inquire about requesting permission numbers. When you contact the professor, they may tell you to wait until a certain date to call back, or to contact the department to request a permission number, or give you a permission number to add the course, or put you on a waiting list, or tell you “no”, or tell you to come to the first day of the course, or come in on a certain day and fill out a request form, etc. Remember to be short-n-sweet in your request! If you do not hear back from the professor, it most likely means that they are not giving any permission numbers, so you just need to keep checking myZou for open seats. Remember that myZou is open 24 hours a day, and you can add a course all the way up to the last day to add a course to your fall schedule (= Monday August 31st) is the last day to add a 16-week course to your fall schedule. Last thing: The Psych Advising Office has no power to grant you a permission number into a non-psychology course, so we do not take requests for non-psychology courses.

5) WHAT ABOUT ONLINE COURSES OFFERED VIA MIZZOU ONLINE?
• Sometimes online courses have spaces reserved for “true” distance students (i.e., students that cannot take courses on-campus) – if the course you are hoping to add looks open, but myZou does not allow you to add and gives you this message: “Available seats are reserved and you do not meet the reserve capacity requirements,” that is the reason why. You just need to keep trying to add just in case a non-true-distance-seat becomes open. If you have any questions, check with Mizzou Online: 573-882-2491, email MizzouOnline@missouri.eduAll A&S majors can add the online courses at any time as long as they are OPEN and seats are available for non-distance students. (Mizzou Online holds a certain number of seats in each course for true distance students, e.g., someone living in Chicago.) There is one exception: Psych
3010 (Research Methods I, see below for more information). If you are not an A&S major, check with your Academic Advisor to see if you can add online courses on your own.

- A&S students (including psychology majors) may enroll in a maximum of 7 hours of online coursework each semester. A&S will not approve A&S majors to take more than 7 hours online. If you are not an A&S major, check with your Academic Advisor to see if there are restrictions on the number of online course hours you can take each semester.
- If the online psychology course is a 9-month course (self-paced), you must enter a “Start Date” before myZou will allow you to add the course – click on the calendar icon to choose a Start Date.
- If the online psychology course you hope to take is closed, you need to keep checking myZou for open seats.
- We only restrict ONE of the psychology courses that are offered online: Psych 3010 (Research Methods I). To enroll in Psych 3010, you must EITHER have Stat 1200 completed with a C or better (no C- or below) OR you must be co-enrolled in Stat 1200 (i.e., Stat 1200 must already be on your schedule, then you will be able to enroll in Psych 3010). To enroll in Psych 3010 online only, please email Melanie at IrishM@missouri.edu to request a permission #.
- Other than Psych 3010, our office does NOT give permission #'s for the online psychology courses. Please contact Mizzou Online with any questions: 573-882-2491, email MizzouOnline@missouri.edu

6) DID YOU KNOW? WHEN REGISTERING ON MYZOU, YOU WILL ALWAYS SEE A PERMISSION NUMBER BOX, BUT YOU ONLY NEED TO ENTER IN A PERMISSION NUMBER IF THE COURSE IS CLOSED, OR IF THE CLASS NOTES SAY THAT YOU MUST REQUEST A PERMISSION NUMBER TO ENROLL IN THE COURSE.
