Looking to gain research experience?

Join the

Cognitive and Emotional Control Lab

If you are interested in:

- Running experiments
- Data Management and Analysis
- Transcribing and coding speech samples
- Potentially analyzing fMRI or EEG data
- Learning about the research process

If you are interested in applying to graduate school, research experience is very important. If any of the above activities sound interesting, consider working in John Kerns’ lab. Please email Nicole Karcher (nrkc68@mail.missouri.edu) in order to obtain an application.
