

MU Department of Psychological Sciences Wellness Resource Committee Community Resources

Note: The following information represents recommendations for services in the community based on graduate students' opinions in response to an anonymous survey. This information does not necessarily reflect the opinions of the MU Department of Psychological Sciences or the MU Department of Psychological Sciences Wellness Resource Committee.

How to Interpret/Use this List

This resource list is based on aggregate data and reflects varying numbers of respondents. These data also reflect graduate students' spontaneous responses on services and providers they would recommend and why and those they would not recommend and why not. There is a substantial amount of missing data for the providers listed in this resource list (e.g., blank cells) because students did not always identify why they recommended a provider or only one.

The information is grouped into a table for each type of wellness resource or service to facilitate comparison of providers. A smiley face in a given cell indicates that students recommended that provider (the row) for the factor (the column). A neutral face indicates that some students recommended that provider and others did not for that reason. An empty cell indicates that students neither recommended nor did not recommend a provider for a given reason.

DENTAL
