

The Family and Child Development Lab

<http://familyandchilddevelopmentlabmizzou.weebly.com>

▶ Current Research in the Lab

- ▶ What are the physiological, emotional, and cognitive mechanisms through which the quality of parent-child relationships is transmitted across generations?

▶ Research Assistant Opportunities

- ▶ Interviewing parents about their early relationships
- ▶ Collecting, coding, and analyzing physiological (EEG, heart rate) and observational data from parents and children

▶ Now accepting RA applications

- ▶ Visit the lab website (see above) for an RA Application. Send your completed application to Dr. Ashley Groh (groha@missouri.edu).
