Looking to gain research experience?

Join the

Cognitive and Emotional Control Lab

If you are interested in:

- Running experiments
- Data management and analysis
- Coding video data
- Potentially analyzing fMRI data
- Learning about the research process

If you are interested in applying to graduate school, research experience is very important. If any of the above activities sound interesting, consider working in Dr. John Kerns’ lab.

Please email Jessica Hua (jphc55@mail.missouri.edu) in order to obtain an application
