Enrich Your Undergraduate Experience and Post-Graduation Opportunities

Personality Dynamics Lab

Want to understand the dynamics of how people change, what people desire, and what the good life consists of? RAs run CREATIVE experiments on topics varying from emotions to goals to happiness. Students interested in a future in clinical, personality, or social psychology, as well as those interested in social work, business administration, and human resources can benefit from being an RA in our lab.

If interested in earning credit (2950/4950) or just volunteering for the experience, please contact Chris at c.a.sanders@mail.missouri.edu

Lab Director: Laura A. King, Ph.D.
